## TIGHT BUFFER PVC/LSZH JACKETED SIMPLEX / DUPLEX CORD

## Duplex Round-PVC/LSZH Cable

## APPLICATIONS

This cable is mainly used for interconnecting cable for jumpers, patch cords or pigtails.

## Features:

Suitable for indoor use, such as routing connections in patching systems.
Short "patch cord" cables ideal for links between electronic equipment and fi ber panels.
Compatible with wide variety of fi ber optic connectors.
High quality tight-buffer coating on fi ber for environmental and mechanical protection.
Customized jacket colors available for matching connectors.
Private labeling on the cable outer jacket is also available.

## PRODUCT DESCRIPTION

Duplex Round Cable consists of two single fi bers, each with a color-coded PVC tight buffer. They are reinforced with aramid yarn to provide physical and tensile strength. The fi bers are jacketed with either Flame Retardant PVC or LSZH compound. The cable is unconnectorized.
