Twisted Single Pair FEP Insulated

KX FEP insulated 1P20AWG

APPLICATIONS

These cables are used with thermocouples for temperature measurements.

CABLE CONSTRUCTION

Conductor: Solid. Material is according to thermocouple type.

Insulation: FEP polymer

Screen: Aluminum tape

Drain wire: Tinned copper

Outer sheath: FEP polymer

Construction: Round

KCB FEP insulated for option

COLOUR CODE

According to IEC 60584-3

Color of Insulation: Green+White

Color of Sheath: Green

PHYSICAL AND THERMAL PROPERTIES

Max. Temp.(°C): 200°C

DIMENSION AND PARAMETERS

Cable Construction	Nom. Overall Diameter	Approx. Weight
	mm	kg/km
1P20AWG (0.81)	3.7	30
