### AS/NZS 1802:2003 Reeling & Trailing Cables

Type 241 Superflex 1.1KV 3C185

#### **APPLICATIONS**

These cables are similar to Type 241 cables, except more flexible and have a smaller 'natural' bending radius, suitable for use as monorail cable where cable loops will be narrower, thus allowing more space for other equipment and reducing opportunities for getting snagged.
